

Charge to the Resilience Working Group

- **A chance to share and collaborate on lessons and experiences.**
- **Begin the cross-state dialog about how to move from response to resilience**

Specific Challenges to the Group

- **Think science to operations. How do we apply what we know and learn?**
- **Be integrators with the other Priority Issues Teams**
- **Assess the gaps in the group's membership**

Specific Challenges to the Group

- Track, review, contribute to, and apply the results of the resilience actions in the Governors' Action Plan.
- Coordinate with other parts of GOMA, especially the Regional Restoration Coordination Team (RRCT).
- Identify new actions / opportunities for the next action plan.

Initial Meeting Results

Priority Issues

- 1. Collect information by states:**
 - a. Best practices**
 - b. Lessons learned**
 - c. Processes**
 - d. Deliverables**
- 2. Needs of the five states, for example, hazards-mitigation-insurance**

Priority Issues

3. Ask our team to “bring a friend”, but someone who will be a worker, not an attendee.
4. Ask our team to identify from 1 to 5 things we need to make the Resiliency Working Group successful
(For example, data on selected topics.)
5. Need a dedicated full-time person to make this work.

Priority Issues

- 1. Collect information by states:**
 - a. Best practices**
 - b. Lessons learned**
 - c. Processes**
 - d. Deliverables**
- 2. Needs of the five states, for example, hazards-mitigation-insurance**
